About Caller Identification (Caller ID)

This product has a Call ID with Call Waiting feature that works with service from your local phone service provider.

Call ID with Call Waiting lets you see who's calling before you answer the phone when you're on another call.

You may need to change your phone service to use this feature.

Contact your phone service provider if:

- You have both Call ID and Call Waiting, but as separate services (you may need combined service).
- You have only Call ID service or only Call Waiting service.
- You don't subscribe to any Call ID or Call Waiting service.

You can use this product with regular Call ID service and you can use this product's other features without subscribing to either Call ID or combined Call ID with Call Waiting service.

There are fees for Call ID service, and they may not be available in all areas.

This product can provide information only if both you and the caller are in areas offering Call ID service and if both telephone companies use compatible equipment.

About the Calls Log

This phone assigns each incoming call a number from 1 to 50 at the hands-off. The most recent call will have the lowest number. When the memory is full, the oldest call information is deleted to make room for new incoming call information. See CALLER ID OPERATION, beginning on page 43, for more details.

If you answer a call before call information appears on the screen, it will not appear in the calls log.

About Adding Handsets

This product is compatible with the AT&T 5800 Expansion Hands-free. You may add up to five additional 5800 units (purchased separately) to this phone. Follow the instructions provided with the additional hands-free(s) for installation and registration.

NOTE: Although you can register up to six hands-free, only four can be used at one time.

INSTALLATION

Table/Desktop Installation

© **NOTE:** Install this telephone away from electronic equipment, such as personal computers, television sets or microwave ovens. Avoid excessive heat, cold, dust or moisture.

- 1 **Connect the telephone line cord.**
- 2 **Connect the power cord.**
The ON/OFF light goes on, and CL flashes in the Message Window.

! Use only the power cord supplied with this product. If you need a replacement, call 1-800-222-3111.

- 3 Install the hands-free battery.
Use only AT&T Battery 2401, SKU# 91077.

INSTALLATION

- 4 Charge the hands-free battery.
- Place the hands-free in the base.
 - Charge the battery at least 12 hours. After the first charge the battery will charge in eight hours.
- 5 Check for dial tones.
- After the batteries are recharged, lift the hands-free and press **[PHONE]**; You should hear a dial tone.

About Handset Registration

- 1 The cordless handset that came with your system is automatically registered as Hands-free 1. There is no need to re-register it.
- 2 You may register up to a total of six Expansion Handsets to this telephone system. (Model 5800 handsets sold separately).
- 3 Additional handsets will be assigned Hands-free 2, Hands-free 3, Hands-free 4, Hands-free 5, and Hands-free 6.
- 4 When you install the handset battery pack, the handset will display SEARCHING FOR BASE (if it's registered) or ENTER BASE ID (if it has not been registered).

Register an Additional Handset (Model 5800 Handset)

- 1 Make sure the handset battery pack has been charged for at least 12 hours and that the power cord is plugged into the base unit.
- 2 At the cordless handset, press the softkey and **NEW**.
- 3 Enter the 15-digit Base Unit ID Code located on the underside of your Model 5870 base.
- 4 Press the softkey and **OK**. The screen displays PLEASE WAIT!!
- 5 After about 45 seconds, the screen displays FOUND BASE. If the handset displays BASE BUSY TRY LATER, the base is in use. Wait until the base is in idle then try the registration process again by repeating steps 2-4 above.

INSTALLATION

INSTALLATION

Spare Battery/Power Failure Backup

You can buy a spare hands-free battery (AT&T Battery 2401, SKU# 91077, sold separately) and keep it charged in the base at all times.

In the event of a power failure a fully charged battery in the spare battery compartment will allow you to make and receive calls from the cordless hands-free only for up to 2½ hours.

The spare battery will fully charge in 24 hours.

FEATURE SETUP – HANDSET

Feature Setup Menu

Press the softkey and **MENU** to enter the Feature Setup menu. Use **▲** or **▼** to choose a feature, then select **OK** to save your choice.

Ⓢ **NOTE:** If you wait more than 20 seconds without pressing a key, the handset returns to the idle screen.

Ⓢ **NOTE:** If you receive an incoming call while in feature setup, the phone automatically exits the menu to let you take the call.

Set Time

You can choose to set the time manually, or you can allow it to be set automatically with incoming Call ID information.

- 1 Press **MENU**.
- 2 Press **▼** until the screen displays

INTERCOM
VOICE ANNOUNCE
HANDSET SETTINGS

- 3 Press **OK**. The screen displays the current time setting. Use **◀** to move the cursor, and use the keypad to change a digit. Press **AM/PM** to select AM or PM.
- 4 Press **SAVE** to save the displayed time.

Clock Mode

You can choose to display the time when the phone is idle or you can turn this feature off. The default setting is ON.

- 1 Press **MENU**.
- 2 Press **▼** until the screen highlights

VOICE ANNOUNCE
HANDSET SETTINGS
SET TIME
CLOCK MODE

- 3 Press **OK**. The screen displays

CLOCK ENABLE
ON

- 4 Press **OFF** or **ON**.
- 5 Press **OK** to save the display setting.

FEATURE SETUP – HANDSET

Sound Select

This telephone has the latest acoustic receiver design, providing you with four different sound quality settings.

During a call, you can adjust the quality of the sound. Pressing **SOUND SELECT** repeatedly will cycle you through four different responses.

Ⓢ **NOTE:** The mid-boost setting is hearing-aid compatible.

BASS – Low frequency sounds enhanced.

MID – Mid-range sounds enhanced.

TREBLE – High frequency sounds enhanced.

NATURAL – No frequency enhancement.

Ⓢ **NOTE:** This feature is available only on the hands-free earpiece, not on the speakerphone or optional hands-free.

Ringer Volume

Adjust the volume of the handset's ring. Setting the volume so that no bars show on the graph turns the ring off.

- 1 Press **MENU**, then **▼** until the screen highlights **HANDSET SETTINGS**.
- 2 Press **OK**.
- 3 Press **OK** when **RINGER VOLUME** is highlighted. The screen displays

Charlie Johnson
360-555-0100
10:55AM MAY 10

- 4 Press **◀** or **▶** to hear sample of ring volume.
- 5 Press **OK** to save the displayed setting.

© **NOTE:** Ring Volume and Vibrate settings are independent. Adjusting Ring Volume does not affect Vibrate.

Ringer Melody

The Ringer Melody sets which ring you hear when you have an outside call. The Ringer Melody default setting is #01; there are eight Ringer Melody selections.

- 1 Press **MENU**, then **▼** until the screen highlights hands-free settings.
- 2 Press **OK**, then **▼** until the screen highlights ring melody.
- 3 Press **OK**. The screen displays

- 4 Press **◀** or **▶** to display desired setting. A sample of the displayed setting is played briefly.

If the ringer is off, no melody will play when select the melody in step 4.

Adjust the volume of the hands-free ringer. Setting the volume so that no bars show on the graph turns the ringer off.

- 5 Press **OK** to save the displayed setting. You will hear a confirmation tone.

Vibrate Control

When this feature is on, the handset vibrates when you have an incoming call. The default setting is OFF.

- 1 Press **MENU**, then **▼** until the screen highlights **HANDSET SETTINGS**.
- 2 Press **OK**, then **▼** until the screen highlights **VIBRATE CONTROL**.
- 3 Press **OK**. The screen displays

- 4 Press **OFF** or **ON**.
- 5 Press **OK** to save the displayed setting.

Ⓢ **NOTE:** Vibrate and Ring Volume settings are independent. Adjusting Vibrate does not affect Ring Volume.

Range Tone

You can set the handset to sound a tone when you are approaching the range limit, or you can turn this tone off. The default setting is ON.

- 1 Press **MENU**, then **DOWN** until the screen highlights HANDSET SETTINGS.
- 2 Press **OK**, then **DOWN** until the screen highlights RANGE TONE.
- 3 Press **OK**. The screen displays

- 4 Press **OFF** or **ON**.
- 5 Press **OK** to save the displayed setting.

FEATURE SETUP - HANDSET

Keypad Tone

When this feature is on, each key press makes a sound. The default setting is ON.

- 1 Press **MENU**, then **▼** until the screen highlights hands-free settings.
- 2 Press **OK**, then **▼** until the screen highlights keypad tone.
- 3 Press **OK**. The screen displays

- 4 Press **OFF** or **ON**.
- 5 Press **OK** to save the display's setting.

Set Contrast

You can adjust the screen contrast for easy viewing.

- 1 Press **MENU**, then **▼** until the screen highlights **HANDSET SETTINGS**.
- 2 Press **OK**, then **▼** until the screen highlights **CONTRAST**.
- 3 Press **OK**. The screen displays

- 4 Press **◀** or **▶** to decrease or increase contrast.
- 5 Press **OK** to save the display setting.

Language Setting

You can select each registered handset so the display appears in English, Spanish or French. The default setting is ENGLISH.

FEATURE SETUP – BASE

Ringer Volume

- 1 Make sure the base is not in use.
- 2 Pressing and holding , then press VOL  or VOL  to adjust the ringing volume. Each time you press  or  you will hear how loud the ringing is. To turn the ringing off, press  until you hear no tone.

FEATURE SETUP - BASE

Ringer Melody

- 1 Make sure the base is off.
- 2 Press **[X] [X] [X]**. You will hear a tone and the IN USE light will flash.
- 3 Press **[1]**, **[2]**, **[3]**, **[4]**, **[5]**, **[6]**, **[7]**, or **[8]** to select a ring melody. Each time you press a key, you'll hear a sample of the melody.
- 4 Press **[#]** to save your selection
— OR —
Press **[X]** to exit without saving.

Dial Mode (Tone/Pulse)

- 1 Make sure the base is off.
- 2 Press *** * ***. You will hear a tone and the IN USE light will flash.
- 3 Press **0**. If the IN USE light goes on, you have selected TONE. If the light goes off, you have selected PULSE. Press **0** again to change your selection.
- 4 Press **#** to save your selection
— OR —
Press *** * *** to exit without saving.

FEATURE SETUP - BASE

TELEPHONE OPERATION

Volume

Handset

You can adjust the volume of what you hear through the handset during a conversation by pressing ▲ or ▼ on the right side of the handset. You will hear a special tone when you reach the high-st or low-st setting.

Speaker

During a conversation, press VOL ▲ or VOL ▼ to adjust the base speaker volume. You will hear a special tone when you reach the high-st or low-st setting.

Handset Speakerphone

When the handset speakerphone is activated, you can use the phone hands-free. Stand the handset on a flat surface (not in the base) and continue your conversation.

Ⓢ **NOTE:** For best performance use the handset speakerphone in a quiet location with the handset facing you from no more than four feet away.

Make a Call

- 1 Press **SPEAKER**, then dial the number.
— OR —
Dial the number then press **SPEAKER**.
- 2 To end the call, press **OFF**.
— OR —
Place the handset in the base.

Answer a Call

- 1 Press **SPEAKER** to answer a call.
- 2 To end the call, press **OFF**.
— OR —
Place the handset in the base.

Switch Between Handset and Speakerphone

While on a call you can press **SPEAKER** to switch to speakerphone. While on a speakerphone call, press **SPEAKER** to return to the handset mode.

Ⓢ **NOTE:** If you press **PHONE** while you are on the speakerphone, you will flash the call.

TELEPHONE OPERATION

Flash/Call Waiting

If you subscribe to Call Waiting service with your local telephone service provider, you can answer a new incoming call without losing your current call.

Handset

- 1 Press **PHONE**/**FLASH** to connect to the new call when you receive a call-waiting signal.
- 2 Press **PHONE**/**FLASH** again to return to the original call.

Ⓢ **NOTE:** Use **PHONE**/**FLASH** to access other phone company subscriber services, as described by your provider.

Base

- 1 Press **FLASH** to connect to the new call when you receive a call-waiting signal.
- 2 Press **FLASH** again to return to the original call.

Ⓢ **NOTE:** Use **FLASH** to access other phone company subscriber services, as described by your provider.

Mute Handset

- 1 During a telephone conversation, mute the handset microphone by pressing **MUTE**. The other party will be unable to hear anything on your end. The screen displays

- 2 To return to two-way conversation, press **MUTE** again.

Base

Press **MUTE** on the base to prevent the other party from hearing you, the **MUTE** light goes on. Press **MUTE** again to return to two-way conversation.

Hold Handset

NOTE: When a call is on hold, the screen displays CALL ON HOLD. If the clock feature is on, this message will be displayed for five seconds, then return to the clock display with H on top of the screen.

After five minutes, the handset will ring to remind you that it's a call on hold. If you do not answer the ring, the call will be disconnected.

- 1 While on a call, press **HOLD**. You can now use the intercom if you wish (see page 34).
- 2 To return to the call, press **PHONE**.

Base

- 1 Press **HOLD** on the base to place a call on hold. The IN USE light goes on and the SPEAKER light flashes.
- 2 Press **HOLD** again or press **SPEAKER** to return to the call.

After five minutes, the base will ring to remind you that it's a call on hold. If you do not answer the ring, the call will be disconnected.

Temporary Tone Dialing

If you have dial puls- (rotary) s-vice- you can chang- from dial puls- to touch ton- dialing during a call.

- 1 Mak- th- call, and wait until it is conn-ct-.
- 2 Pr-ss **X-TONE**. K-ys pr-ss- aft- th- s-nd touch ton- signals.
- 3 Aft- th- you hang up, th- phon- automatically r-urns to dial puls- (rotary) s-vice-.

DISPLAY SCREEN MESSAGES

SCREEN DISPLAYS: WHEN:

INCOMING OUTSIDE CALL	You have an incoming phone call (without Call ID).
INTERCOM FROM [PARTY NAME]	You have an intercom call from [PARTY NAME], for example, HANDSET 2. Once an intercom call is underway, the handsets will show the icons of the participating parties.
LOW BATTERY	The handset's battery is low.
EXTENSION IN USE	Another phone on this line is in use.
PARALLEL SET IN USE	Both this phone and another phone on this line are in use.
SEARCHING FOR BASE	The handset is out of range.
REJECTED BY BASE	The base refused to accept the handset, either because it is in use by six handsets, or the handset's registrations on the base have been deleted.
FOUND BASE	The handset has finished SEARCHING FOR BASE and has made a link.
LINE IN USE	Another device of the phone system is using the phone line; for example, if the base is using the line, the handsets will all show this message.
[XX] NEW CALLS	The number of distinct unanswered calls with call ID which have not been viewed in the calls log.
CALL ON HOLD RING BACK!	A call has been on hold for five minutes; pick up the call again.
CHECK AC POWER	The base is being powered by the spare battery rather than by AC from a wall outlet; check that the base is properly plugged in to a working electrical outlet.

HANDSET ICONS

THIS ICON: INDICATES

INTERCOM OPERATION

Intercom Calls

If you have more than one handset (AT&T 5800, purchased separately) registered with your 5870 base, you can make intercom calls between handsets.

From Base to All Handsets

- 1 Press **on** on the base.
- 2 All handsets will ring.

From Base to Selected Handset

- 1 Press **on** on the base.
- 2 Press the number of the handset you want to reach (for example **3**).

From Handset to Base

- 1 Press **MENU**, then press **▼** until INTERCOM is highlighted.
- 2 Press **OK**.
- 3 Press **▼** until BASE is highlighted, then press **OK**.

From Handset to Handset

- 1 Press **MENU**, then press **▼** until INTERCOM is highlighted.
- 2 Press **OK**.
- 3 Press **▼** until the desired handset is highlighted, then press **OK**.

From Handset to Base/Handset(s)

- 1 Press **MENU**, then press **▼** until INTERCOM is highlighted.
- 2 Press **OK**.
- 3 Press **▼** until GLOBAL PAGE is highlighted, then press **OK**.

Answering Intercom

At hands -> pr -> **PHONE**.

At bas -> automatically answ -> **PHONE**.

End Intercom

At hands -> pr -> **OFF**.

At bas -> pr -> **SPEAKER**.

Blind Call Transfer

If you have installed additional AT&T 5800 handsets (purchased separately) with your 5870 telephone, you can transfer a call from one handset to another.

From the Handset

- 1 Press **TRANSFER**, then use **▼** to highlight where you want the call transferred.
- 2 Press **OK** when the desired destination is highlighted to complete the transfer.

From the Base

- 1 Press **INTERCOM**.
- 2 Press the number of the handset where you want the call transferred (for example, 2).

⊙ **NOTE:** An unanswered call will ring back to the originating handset or base if not answered in 30 seconds. If the originating handset or base does not answer the unanswered call yet, the call will end automatically in 30 seconds.

Announced Call Transfer

From the Handset

- 1 Press **HOLD** to put the call on hold.
- 2 Press **MENU**, then use **▼** to highlight **INTERCOM**.
- 3 Press **OK**, then use **▼** to highlight the call destination, then press **OK** again.
- 4 When the handset or base answers, announce the call.
- 5 Press **OFF** on the handset or **SPEAKER** on the base to end the call.
- 6 Press **PHONE** on the answering handset or **SPEAKER** on the base to pick up the call on hold.

From the Base

- 1 Press **HOLD** to put the call on hold.
- 2 Press **INTERCOM**, then press the number (1~6) of the handset you want to reach.
- 3 When the handset answers, announce the call.
- 4 Press **OFF** on the handset or **SPEAKER** on the base to end the call.
- 5 Press **PHONE** on the answering handset to pick up the call on hold.

Conference Calling

From the Handset

- 1 If on-hands-free is already on a call, you can connect a second hands-free to the call by pressing **PHONE** on the second hands-free.
— OR —
If you are on an intercom call and have a second call on hold, press **PHONE** to add the held call to the conference call.
- 2 Disconnect either or both hands-frees by pressing **OFF**.

From the Base

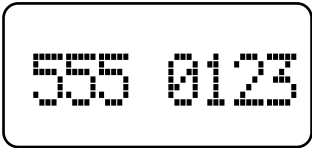

- 1 If on-hands-free is already on a call, you can connect the base to the call by pressing **SPEAKER** on the base.
— OR —
If you are on a call and have a second call on hold (on this is an incoming call, the other is an outgoing call; or both are outgoing calls) on the base at the same time by using flash function, press **FLASH** to add the held call to the conference call.
- 2 Disconnect the hands-free by pressing **OFF** on the hands-free or disconnect the base by pressing **SPEAKER** on the base.

PHONE BOOK

This telephone can store up to 50 telephone numbers and names. Each number can be up to 32 digits long and each name can be up to 16 characters.

Store a Number and Name in Phone Book

- 1 Enter the number you want to store. The screen displays the number you enter. To delete a digit, press **OFF**/**CLEAR**; to clear the screen press and hold **OFF**/**CLEAR**.

555 0123

CALLER ID OPERATION

If you subscribe to Caller ID service with your local phone service provider, this phone stores all incoming calls (up to 50 at the hands-off) with valid Caller ID information in the calls log. Name, number, time, and date information can all be stored, if they are sent with the call. Calls are automatically stored in the order that they are received, with call "1" stored as the most recent call. The calls log number appears next to the date on the screen display.

JOHNSON THOMAS
908-555-0123
10:30P Oct12

Ⓢ NOTE: The number of new calls displayed on each handset may not be the same. For example, if you answer a call on Hands-off 2, it will not consider that call information as new, but other handsets will.

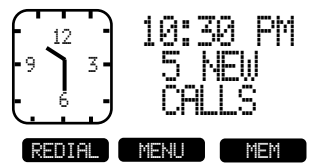

If Caller ID information has been received, you can see a summary of the new calls on the idle screen. After you receive all new call records, the NEW CALLS indicator will go off.

- 2 After Step 4 in "Storing a Number and Name in Phone Book" (ENTRY HAS BEEN STORED!) the screen prompts RECORD VOICE ANNOUNCE?
- 3 Press **NO** to store the number without an announcement — OR — Press **YES** to record an announcement.
- 4 Press **RECORD**. The screen displays

RECORD AFTER
TONE

Speak directly into the handset's microphone, holding it directly in front of you, about 12 inches from your mouth.

- 5 Press **STOP** when you are finished recording (system will automatically stop after three seconds).
- 6 Press **PLAY** to review the Talking Caller ID announcement at the basic speed.

Edit Talking Caller ID Announcement

- 1 Press **MENU**, then press **▼** until the screen highlights **VOICE ANNOUNCE**.

```
CALLS LOG
INTERCOM
HANDSET SETTINGS
```

- 2 Press **OK**, then press **▼** until the screen highlights **RECORD NEW**. Press

```
REVIEW
RECORD NEW
SELECT TYPE
```

- 3 Press **▲** or **▼** to scroll through memory in alphabetical order

— OR —

Enter the first letters of a name (then **▲** or **▼**, if necessary) to display the name you're searching for

```
GEORGE
555-0123
```

— OR —

Press **FIND**, then enter the first few letters of the name you're searching for and press **FIND** again.

- 4 Press **EDIT**, then press **UA**. If an announcement is already recorded, the screen displays **ANNOUNCEMENT ALREADY RECORDED**. If you want to change the announcement, press **RECORD** twice. If no

- 5 Press **STOP** to end recording.

- 6 Press **PLAY** to review your announcement at the base speaker.

CALLER ID OPERATION

Review, Play, Erase Talking Caller ID Announcements

- 1 Follow Steps 1-4 and the "Edit Talking Caller ID Announcement" on page 46.
- 2 Press **ERASE** to delete the announcement.
— OR —
Press **PLAY** to hear the announcement.
— OR —
Press **RECORD** twice to record an announcement.

Review Calls Log

- 1 Press **MENU**, then press **OK**. The screen displays the most recent call in the calls log.

- 2 Press **▲** or **▼** to scroll through call records.

Store Record in Phone book

- 1 While the call information is displayed, press **CID**, then use **▲** to scroll through dialing options.

For example: 555-1212
1-555-1212
908-555-1212
1-908-555-1212

— OR —

While the call information is displayed, press **#** to scroll through dialing options, then press **CID**.

For example: 555-1212
1-555-1212
908-555-1212
1-908-555-1212

- 2 Press **SAVE**.
- 3 The screen displays ENTRY HAS BEEN STORED!
- 4 To record a Talking Call ID announcement for this phonebook entry, please turn to page 45.

Display Dial

While you are viewing the calls log, you can dial a number displayed on the screen. You can change the format of the number using "Dialing Options" below.

Press **PHONE** or **SPEAKER** to dial the displayed number.

Dialing Options

- 1 While a call record is displayed, press **CID**, then select **OPT#**.
- 2 Use **▲** or **▼** to highlight the number the way you want to dial it.

For example: 555-1212

1-555-1212

908-555-1212

1-908-555-1212

The number of dialing options (up to four) available for each call displayed depends on the format of the original call.

ANSWERING SYSTEM OPERATION AT THE BASE

Audible Indicators

This system gives you voice prompts for feature operations and voice confirmations when you press a button or complete an operation.

Turn Answering System On/Off

Press **ON/OFF** to turn the system on or off. When the system is turned on, you will hear "Machine on" and the ON/OFF light will blink.

When turning the system on for the first time, it will use the default setting and pre-record outgoing announcements.

Set the Clock

1. Make sure the answering system is on.
2. Press **TIMESET**. The system announces the clock setting, then announces "To change clock, press..."
3. Press **CHANGE**.
4. Press **1** until the system announces the correct day, then press **ENTER**.
5. Press **2** until the system announces the correct hour, then press **ENTER**.
6. Press **3** until the system announces the correct minute, then press **ENTER**. The system announces the current clock setting.

Ⓢ **NOTE:** You can press and hold **CHANGE** to advance the minute setting by tens.

ANSWERING SYSTEM OPERATION

About Mailboxes

This answering system has three voice mailboxes. Callers using a touch tone phone can select the mailbox in which their messages will be recorded by pressing **1**, **2** or **3**. All other messages will be recorded in Mailbox 1.

About Announcements

- You can record up to two different announcements — one for normal answering and one for when you've set the system to play the announcement only.
- Use normal answering when you want the system to record callers' messages. Use Announce-Only when you want to give information to callers without accepting messages.
- If you choose not to record an announcement, the system answers with a pre-recorded announcement.
- The normal answering pre-recorded announcement says: "Hello. Please leave a message after the tone." The Announce-Only pre-recorded announcement says: "We're sorry, messages to this number cannot be accepted."
- By setting Announce-Only to on or off, you decide which announcement your callers will hear when the system answers a call (the system comes on for normal answering, with Announce-Only turned off). See "Change announcement only" on page 55 to change your announcement selection.

Feature summary

Default settings indicated by *.

SYSTEM ANNOUNCES:

DESCRIPTION/DIRECTIONS:

"Change remote access code" 50 *	Set the remote access code you will use to access features and functions of the answering system from a touch tone phone. The code can be changed to any two-digit number from 40-99. NOTE: You can press and hold CHANGE to advance the remote access code by tens.
"Change message alert" * On	When Message Alert is turned on, Off the base phone once every 10 seconds when new messages have been received.
"Change announce only" Off * On	When you turn Announce Only on, callers hear your announcement, but cannot leave a message.
"Change call screening" On * Off	When you turn Call Screening off, you will not hear incoming messages as the call is being screened.
"Change number of rings" 2 4 * 6 Toll Save	Choose how many times the phone will ring before the system answers a call. With Toll Save activated, the system answers after two rings when you have a new message and after four rings when you have no new messages.

Ⓢ **NOTE:** Exit Feature Setup at any time by pressing a PLAY/STOP button.

Listen to, Save & Delete Messages

The system automatically saves your messages until you delete them, and can store approximately 15 minutes of messages, messages, and announcements (up to a maximum of 99 messages).

Before playing a message, the system announces the day and time it was recorded. While the message plays, the message window displays the number of the message. After playing the last message in a mailbox, the system announces "End of message." If the system has less than five minutes of recording time left, it announces the remaining time.

Play Messages

- Press a PLAY/STOP button to play messages in a mailbox. Press again to stop playback.
- Press **REPEAT/SLOW** to repeat a message; hold it to slow down playback.
- Press **SKIP/QUICK** to skip to the next message; hold it to speed up playback.

Delete Messages

- Press **DELETE** to delete the message that's playing.
- To delete all messages in a mailbox, press **DELETE**, then the appropriate PLAY/STOP button.

NOTE: You cannot delete a message until it's been recorded; deleted messages cannot be recovered.

Adjust Playback Volume

Press VOL ▲ or VOL ▼ to adjust the basic speaker volume while playing back messages.

Call Screening/Intercept

- 1 Make sure the answering system and call screening are on, and set the message playback volume control above level 1 so you can hear the call messages.
- 2 If you decide to take the call, press **PHONE** on the handset or **SPEAKER** on the base.
- 3 If you pick up an extension phone during the announcement and the announcement does not stop right away, press and release the telephone switchhook at the extension.

Record a Memo

You can record a memo up to four minutes long to store as an incoming message.

- 1 Press and release **RECORD**.
- 2 Press a PLAY/STOP button to select a mailbox for the memo. After the beep, speak toward the microphone. The message window displays the length of your memo.
- 3 To stop recording, press the PLAY/STOP button again.

MESSAGE WINDOW DISPLAY

WINDOW DISPLAYS: WHEN:

0	No message in any mailbox
1 - 99	Total number of messages in all mailboxes, or current message number during message playback.
0 - 99 ↔ F	Memory is full, or total number of messages is 99
Counting 1 to 99	Duration of announcement or recording (maximum announcement length is 90 seconds)
99, flashing	Length of recording is more than 99 seconds
1 - 8, steadily for on-second	Indicates volume levels set when VOL ▲ or VOL ▼ is pressed
40 - 99	Current Remote Access Code (40-99) while setting
A	Announcement only mode
On or Off, steadily for on-second	Display when any setting is changed from on or off
CL ↔ normal display	Clock needs to be set
--	System is answering a call or is in remote operation
--, flashing	System is in programming mode or initializing

ANSWERING SYSTEM OPERATION AT TOUCH TONE PHONE

Connect with the Answering System

You can access many features of this system remotely from a touch tone phone.

- 1 Dial your telephone number.
- 2 When the system answers, enter your Remote Access Code (prefix to 50). The system beeps once and then announces the number of new messages.
- 3 Enter a remote command (see "Remote Access Commands" on page 60).
- 4 Press **✕** **0** to exit remote operation.

Voice Menu

The system has voice prompts to help you with remote operation.

Press **✕** **5** to hear the menu while remotely connected to the answering system.

BATTERIES

Battery Life

A fully charged battery provides an average talk time of about eight hours, or standby time of five days.

Ⓢ **NOTE:** Talk time and standby time may vary depending on operating conditions.

Battery Indicator

When to five minutes before the battery charge gets too low to operate the handset, an empty battery icon () will flash on the screen, you'll hear three short tones, and the screen will display LOW BATTERY.

If you continue to use the handset without charging the battery or replacing it (you can purchase a spare battery separately), the handset will turn off automatically when the battery is no longer sufficient power.

Ⓢ **NOTE:** Monitor the battery icon to make sure your battery is sufficiently charged.

Charge the Handset Battery Pack

- After a low battery indicator, the handset battery needs to be recharged.
- Place the handset in the base so the CHARGING light goes on. The battery pack is typically charged in eight hours.
- If you repeatedly get a low battery indicator, after eight hours of charging, the battery should be replaced. Use only AT&T Battery 2401, SKU# 91077.

CAUTION: Charge the battery provided with or identified for use with this product only in accordance with the instructions and limitations specified in the User's Manual, Part I.

Spare Battery/Power Failure Backup

You can buy a spare hands-free battery (AT&T Battery 2401, SKU# 91077, sold separately) and keep it charged in the base at all times.

In the event of a power failure a fully charged battery in the spare battery compartment will allow you to make and receive calls from the cordless hands-free only for up to 2 1/2 hours.

The spare battery will fully charge in 24 hours.

BATTERIES

Replace the Handset Battery Pack

- 1 Install the handset battery.
 - Use only AT&T Battery 2401, SKU# 91077.
- 2 Charge the handset battery.
 - Place the handset in the base.
 - Charge the battery for at least 12 hours. After the first charge, the battery will charge in eight hours.

- a) Remove battery compartment cover by pressing on the raised spot and sliding downward.

- b) Align the contacts and place the battery pack in the battery compartment.

IN CASE OF DIFFICULTY

If you have difficulty operating this phone, try the suggestions below. For Customer Service, visit our website at www.tcl-phon.com or call 1-800-222-3111. Please retain your receipt as your proof of purchase.

PHONE

PROBLEM

If the phone does not work at all, check the following first:

SOLUTION

- Make sure the power cord is plugged into the base and an electrical outlet not controlled by a wall switch.
- Make sure the telephone line cord is plugged firmly into the base unit and the telephone jack.
- Make sure the battery pack is installed correctly.

If the above suggestions do not solve the problem, try reinitializing the handset and base. (See "To reinitialize the handset and base".)

PROBLEM

If you have no dial tone:

SOLUTION

Check all the previous suggestions. If you still do not hear a dial tone, disconnect the phone and try another phone in the same jack. If there is no dial tone on that phone, the problem is probably in your wiring or local service.

PROBLEM

If you hear 2 quick beeps when you try to use the handset:

SOLUTION

- The handset and base are not communicating properly. You might be out of range. Move closer to the base and try again.
- If moving closer to the base does not help, follow the directions "To reinitialize the handset and base".

PHONE

PROBLEM

To r-initializ-th-
hands-ē and bas-ē

SOLUTION

- 1 Disconn-ēt th-ēpow-ē to th-ēbas-ē
- 2 R-mov-ē spar-ē batt-ēy pack (if install-ēd).
- 3 R-mov-ē th-ēhands-ē batt-ēy pack.

If you h-ēar nois-ē or
int-ēf-ēr-ēnc-ē wh-ēn
using th-ēphon-ē

SOLUTION

- You may b-ēout of rang-ē. Mov-ē clos-ē to th-ēbas-ē
- Hous-ēhold applianc-ē plugg-ēd into th-ē sam-ē circuit as th-ēbas-ē can som-ētim-ē caus-ē int-ēf-ēr-ēnc-ē. Try moving th-ē applianc-ē or th-ēbas-ē to anoth-ēr outl-ēt.
- Th-ē layout of your hom-ē or offic-ē may b-ē limiting th-ē op-ērating rang-ē. Try moving th-ēbas-ē to anoth-ēr location, pr-ēf-ērably on an upp-ēr floor.
- Using th-ēhands-ē n-ēar hous-ēhold applianc-ē (microwav-ē, comput-ērs, t-ēl-ēvisions, st-ē-ēos, ēc.) can som-ētim-ē caus-ē int-ēf-ēr-ēnc-ē. Mov-ē away from applianc-ē whil-ē using th-ēhands-ē.

IN CASE OF DIFFICULTY

PHONE

PROBLEM

If the phone does not ring when you receive a call:

SOLUTION

- Make sure the ring is on (see Ring Volume on page 12 and 20).
- Make sure the telephone line cord is connected firmly to the base and the telephone jack.
- Make sure the AC adapter is plugged firmly into an electrical outlet not controlled by a wall switch.
- You might be too far from the base to move closer.
- You might have too many extension phones on your telephone line to allow all of them to ring. Try unplugging some of them.

PROBLEM

If your telephone misdials:

SOLUTION

- If you have dial puls (rotary) service you'll need to set the dial method to PULSE. Follow the instructions under "Dial Mode (TONE/PULSE)" in the FEATURE SETUP – BASE section of this manual.
- If you have touch tone service and you hear clicks while you are dialing, you'll need to set the dial method to PULSE. Follow the instructions under "Dial Mode (TONE/PULSE)" in the FEATURE SETUP – BASE section of this manual.

PROBLEM

If you are unable to operate special telephone service or other equipment requiring touch tone signals:

SOLUTION

If you have dial puls (rotary) service follow the directions under "Temporary Tone Dialing" in the TELEPHONE OPERATION section of this manual.

CALLER ID

Problem

If the caller's name or phone number is not displayed:

Solution

- Make sure you subscribe to Caller ID service from your local telephone company.
- Make sure the battery is charged.
- Caller ID service might not work when the phone is connected to a Private Branch Exchange (PBX).

IN CASE OF DIFFICULTY

Problem

If the caller's name or phone number is not displayed during Call Waiting:

Solution

- You should call your service provider to confirm that you subscribe to combined Caller ID with Call Waiting service.
- Caller ID information received during Call Waiting is displayed only on the handset that is in use.
- Make sure the battery is charged.

ANSWERING SYSTEM

PROBLEM

If messages are incomplete:

SOLUTION

- If a call lasts a very long time, part of it may be lost when the system disconnects the call after four minutes.
- If the call is paused for more than several seconds, the system stops recording and disconnects the call.
- If the system's memory becomes full during a message, the system stops recording and disconnects the call.

PROBLEM

If you have difficulty hearing messages:

SOLUTION

Check the volume setting.

PROBLEM

If calls are unable to leave messages in Mailbox 2 or 3:

SOLUTION

Make sure the call is dialing from a touch tone phone.

PROBLEM

If the system does not answer after the correct number of rings:

SOLUTION

- Make sure that the answering system is on.
- If Toll Save is on, the number of rings changes to two when you have a message waiting.
- In some cases, the system may be affected by the ringing system used by the local telephone company.
- If the memory is full or the system is off, the system answers after 10 rings.

ANSWERING SYSTEM

Problem

If CL appears in the Message Window:

information.

Solution

You need to reset the clock. The answering system clock is not set automatically with incoming Call ID

Problem

If the system does not respond to commands from a remote touch telephone.

Solution

- Make sure you are calling from a touch telephone. When you dial a number, you should hear tones. If you hear clicks instead, the telephone is not a touch telephone.
- The answering system may not detect the Remote Access Code while your announcement is playing. Try waiting until the announcement is over before entering the code.
- Make sure you enter your Remote Access Code correctly.
- There may be noise or interference on the telephone line you are using. Press keys firmly.

Problem

If your outgoing announcement isn't clear:

Solution

- When you record your announcement, make sure you speak in a normal tone of voice about nine inches from the base.
- Make sure there is no "background" noise (TV, music, etc.) while you are recording.
